Locations of defibrillators on campus

Dear University members and visitors,

In order to be able to guarantee effective first aid, defibrillators have been installed at 22 locations at the University of Hohenheim. The defibrillators can save lives in the event of ventricular fibrillation.

Defibrillators are located in the following locations, please follow the signs:

1. Hohenheim Palace, west wing, 1st upper level in the hallway of the Human Resources Department (04.12)
2. in the Departmental Library next to the entrance (04.13)
3. Hohenheim Palace, museum wing, ground floor, opposite the Mailroom (04.15)
4. in the Biology Building II, ground floor, opposite the facility manager's office (02.31)
5. in the Euroforum, ground floor, on the right-hand side next to the entrance (02.65)
