Preamble

This curriculum provides applicants and students as well as teaching and administrative staff with comprehensive information about the M.Sc. programme „Agricultural Sciences in the Tropics and Subtropics“. It contains information about the course structure, summarises the most important exam regulations.

The information presented reflects the current situation. Titles and contents of compulsory and optional modules are sometimes subject to change. Due to administrative reasons such changes can only be considered in printed materials with delay. For this reason all information is supplied without liability.

If in doubt, please refer to the coordinator of the programme (masterpr@uni-hohenheim.de) to obtain up-to-date information. For up-to-date module descriptions please refer to the web-pages at www.uni-hohenheim.de/modulkatalog. The entire course catalog is also available via the homepage of the university (www.uni-hohenheim.de)

The Master Programme *Agricultural Sciences in the Tropics and Subtropics*

Programme - Objectives and Conditions

The population of our world is now 7 billion and rising fast. In order to provide food for ourselves and our children in the years to come, we will need to understand and manage ever more complex and diverse agricultural and ecological systems to enable more efficient and sustainable food production in a resource protecting way. This will be particularly true for developing countries in tropical and sub-tropical regions where the population is increasing most rapidly and resources are most limiting.

Any attempts to tackle the problems must involve the application of all branches of Agricultural Sciences in ways that will carefully: analyse existing food production systems, develop sound strategies to safeguard natural resources, and provide new, sustainable and adaptable techniques for farmers to use.

To meet this demand the Master Programme Agricultural Sciences in the Tropics and Subtropics (AgriTropics) was developed in cooperation with international agricultural research and development organisations. A programme advisory board meets frequently in order to support the programme in their focus on educating students for the challenging task in international agriculture and resource conservation. Students of all nationalities acquire analytical skills and multidisciplinary competence, to address current and future problems in agricultural ecosystems.

The M.Sc. Programme "Agricultural Sciences in the Tropics and Subtropics" was awarded by the German Academic Exchange Service (DAAD) with the quality label "TOP 10 International Master's Degree Courses Made in Germany" in 2008.

Programme Design

The two year M.Sc. programme consists of 14 modules (including one with practical science training) (90 credits) and one research semester (30 credits), during which a Master Thesis has to be done. Eight of the modules are compulsory (49.5 credits).

	1. Semester	2. Semester	3. Semester	4. Semester
6 Credits	3801-420 (Cadisch) Crop Production Systems	3803-470 (Asch) Interdisciplinary Practical Science Training (7.5 credits)	4903-460 (N.N.) Methods in Interdisciplinary Collaboration	Master Thesis (30 credits)
6 Credits	3802-410 (Sauerborn) Ecology and Agroecosystems	Elective module (7.5 credits)	3402-420 (Piepho) Quantitative Methods in Biosciences	
6 Credits	4904-450 (Berger) Farm and Project Evaluation	Elective module (7.5 credits)	Elective module (6 credits)	
6 Credits	3803-4 (Asch) Natural Resource Use and Conservation in the T. + S.	Elective module (7.5 credits)	Elective module (6 credits)	
6 Credits	4801-450 (Valle Zárate) Livestock Production Systems and Develop.	Elective module (7.5 credits)	Elective module (6 credits)	

In order to allow students to create an individual profile, six elective modules (at least 40.5 credits) can be chosen from the list of all master modules of the Faculty of Agriculture. Particularly recommended modules are

listed on page 8. Upon application, examination achievements of up to 30 credits can be recognised. The full programme has an extent of 120 ECTS.

Modules

The programme follows a modular course structure. A typical semester consists of 30 credits. The modules of the first and third semester last the full length of the semester. The modules of the second semester are offered as blocked courses, each including three weeks of instruction, one week of individual preparation, and an exam at the end of week four.

Each module of 6 credits corresponds to a workload of 4 SWS (weekly contact hours per semester), which is 56 contact hours per module. Each module of 7.5 credits corresponds to a workload of 5 SWS (weekly contact hours per semester), which is 70 contact hours per module. In addition time for preparation at home is needed, summing up to a total workload of about 160 hours for one module of 6 credits and 200 hours for one module of 7.5 credits. Each module may consist of different forms of teaching (e.g. seminar, lecture, practical, excursions).

For the complete catalogue of modules offered by the faculty of Agricultural Sciences, refer to www.uni-hohenheim.de/modulkatalog. If the examination board agrees, up to 30 credits can be chosen from courses offered by other study programmes at the University of Hohenheim (see: www.uni-hohenheim.de/modulkatalog), or by another German university or by a foreign university. Modules which have already been examined may not be chosen for a second time.

The **compulsory modules** are:

Sem	Code	Name of Module	Duration	Credits	Professor
1	3801-420	Crop Production Systems	1 Semester	6	Cadisch
1	3802-410*	Ecology and Agroecosystems	1 Semester	6	Sauerborn
1	4904-450*	Farm and Project Evaluation	1 Semester	6	Berger
1	3803-410	Natural Resource Use and Conservation in the Tropics and Subtropics	1 Semester	6	Asch
1	4801-450	Livestock Production Systems and Development	1 Semester	6	Valle-Zárate
2	3803-470	Interdisciplinary Practical Science Training	SS, Block 1	7,5	Asch
3	4903-460	Methods in Interdisciplinary Collaboration <i>(not offered WS 14/15!)</i>	1 Semester	6	Birner
3	3402-420	Quantitative Methods in Biosciences	1 Semester	6	Piepho

* The number of places is limited but places for AgriTropics students are guaranteed. However you are requested to register for participation online via ILIAS. The registration frame will be open from Sept 10th to Oct 10th.

The **elective modules** can be chosen from the listing below or from the modules of other Master programmes of the faculty of Agricultural Sciences of the University of Hohenheim. On request to the examination board and with the approval of a mentor, modules can be chosen from other pro-

grammes of the University of Hohenheim. With compulsory and elective modules together at least 90 credits have to be reached.

Suggestions for **elective modules**:

Sem	Code	Name of Module	Duration	Credits	Professor
1-4	3000-410	Portfolio-Module (Master)	Not defined	1 – 7.5	Müller, T.
2	3801-430	Integrated Agricultural Production Systems	SS, Block 2	7.5	Cadisch
2	3802-420	Biodiversity, Plant and Animal Gen. Resources	SS, Block 2	7.5	Sauerborn
2	4403-580	Water and Soil Management in Agricultural Production	SS, Block 2	7.5	Müller, J.
2	4801-430	Livestock Breeding Programs – Planning Procedures and International Case Studies	SS, Block 2	7.5	Valle Zárate
2	3803-450	Crop Production Affecting the Hydrologic. Cycle	SS, Block 3	7.5	Asch
2	3501-480	Breeding of Tropical, Ornamental, and Vegetable Plants	SS, Block 3	7.5	Melchinger
2	4403-470	Renewable Energy for Rural Areas	SS, Block 3	7.5	Müller, J.
2	4802-450	Quantitative Methods in Animal Nutrition and Vegetation Sciences	SS, Block 3	7.5	Dickhöfer
2	4901-430*	Rural Development Policies and Institutions**	SS, Block 3	7.5	Zeller
2	4602-450	Food Safety and Drinking Water Quality Related to Zoonoses in the Tropics and Subtropics	SS, Block 3	7.5	Hölzle
2	3803-430	Ecophysiology of Crops In the Trop. and Subtrop.	SS, Block 4	7.5	Asch
2	4303-480	Global Nutrition	SS, Block 4	7.5	Lemke
2	4403-550	Post-Harvest Technology of Food and Bio-Based Products	SS, Block 4	7.5	Müller, J.
2	4801-420	Promotion of Livestock in Tropical Environments	SS, Block 4	7.5	Valle Zárate
2+3	3301-480	Fertilisation and Soil Fertility Mangement in the Tropics and Subtropics (online)	e-learning	7.5	Müller, T.
3	3405-410	Organic Farming in the Tropics and Subtropics	1 Semester	6	Zikeli
3	3502-810	Quantitative Methods in Plant and Livestock Genomics	1 Semester	6	Schmid
3	4404-450	Innovations in Agriculture	1 Semester	6	Köller
3	4801-480	Organic Livestock Farming and Products	1 Semester	6	Valle Zárate
3	4301-420	Inter- and Transdisciplinary Research Approaches in Bio-economics	1 Semester	6	Knierim

Sem	Code	Name of Module	Duration	Credits	Professor
3	4303-490	Ethics of Food and Nutrition Security (<i>not offered in WS 14/15!</i>)	1 Semester	6	Lemke
3	4801-410	Genetic Resources and Animal Husbandry Systems (<i>not WS 14/15!</i>)	1 Semester	6	Valle Zárate
3	4802-440	Physiological and Ecological Aspects of Livestock Nutrition in the Tropics	1 Semester	6	Dickhöfer
3	4902-430	Food and Nutrition Security (<i>not in WS 14/15!</i>)	1 Semester	6	Brockmeier
3	4903-500	Policy Processes in Agriculture and Natural Resource Management	1 Semester	6	Birner
3	4903-490	Social Dimensions of Agricultural Development	1 Semester	6	Birner
3	4901-420*	Poverty and Development Strategies	Second half of semester	6	Zeller
3	4901-470*	Quantitative Methods in Economics**	Second half of semester	6	Zeller
3	4802-470*	Experimental Aquaculture	In March	6	Focken

WS = winter semester

SS = summer semester

* Please register for participation per ILIAS

** The number of places is limited

Module Descriptions For the contents of all modules see: www.uni-hohenheim.de/modulkatalog

Individual Timetable The Course Catalogue of the University of Hohenheim contains information on times, lecturers and lecture rooms of all courses and is available at the beginning of each semester online at the university's homepage: www.uni-hohenheim.de. It is linked to the Module Descriptions. A tool to compose an individual timetable is available on the Intranet. Mind: especially non-blocked modules often consist of more than one course.

Marks and Grades

	marks and grades		
	grades	mark	
<i>excellent performance</i>	<i>very good</i>	A	1.0
		A-	1.3
<i>performance considerably exceeding the above average standard</i>	<i>good</i>	B+	1.7
		B	2.0
		B-	2.3
<i>performance meeting the average standard</i>	<i>medium</i>	C+	2.7
		C	3.0
		C-	3.3
<i>performance meeting minimum criteria</i>	<i>pass</i>	D+	3.7
		D	4.0
<i>performance not meeting minimum criteria</i>	<i>fail</i>	F	5.0

The examination result is expressed in grades and marks. The highest score is 1.0. A score of 4.0 is required for passing.

The end score is calculated as a weighted average score according to the credits achieved in all modules and the Master Thesis.

Credit Point System

With each completed module the students earn credits for the workload associated with each module. The M.Sc. programme has a requirement of 120 credits in total. The credit point system used in the M.Sc. programme is fully compatible with the European Credit Transfer System, ECTS.

Study and Examination Plan

Students have to seek advice of one of the mentors of the programme on which elective modules are suitable for their individual profile. During the first month of study the candidate a counseling confirmation has to be signed by a co-ordinator or mentor and handed in to the examination office, before registration for module examination is possible. After registration for examination a module cannot be dropped any more.

Examinations

Performance is examined through continuous assessment. Each module is examined upon completion. The examinations of the blocked modules are held at the end of the respective block period; those for the unblocked modules are held in the two examination periods that follow the lectures. Students will be registered by signature automatically for the compulsory modules offered in the first and second semester. The registration for elective modules will take place at the end of the first semester through filling in an official form. Withdrawal on the first trial of each module's examination is possible up to 7 days before the examination date. The examination will be postponed to the next possible examination period.

The claim for examination expires if:

- a minimum of six modules has not been passed successfully by the end of the second semester
- an examination of one of the modules has not been passed by the end of the sixth semester at the latest
- one out of 15 modules needs to be repeated more than two times

The claim for examinations does not expire if the candidate cannot be held responsible for the failure to comply with the deadline. The students themselves are responsible for complying with these examination deadlines as well as all other regulations given in the examination regulations. The examination regulations and a leaflet on registration (see: <https://pruefungsamt.uni-hohenheim.de>) are distributed by the examination office.

Please mind that plagiarism, that means the take-over of text or phrases in a written examination (even within a partial performance) without quoting them accordingly, will be marked as attempt of deception and the respective examination performance is to be graded "fail" (F; mark 4.0). A declaration (<https://agrar.uni-hohenheim.de/plagiate.html?&L=1>) has to be attached to homeworks, presentations, and to the thesis. The final digital text document has to be transferred to the mentoring supervisor.

Exam Repetition

In case of failure the examination office will inform the student via mail. Normally, the letter includes the repetition date. In some cases the date for repetition has not been pointed out at the time of informing the students. Students are responsible themselves to check with the responsible professor or the examination office about dates for repeater exams. Usually repeater exams for blocked modules will be scheduled by the responsible professor within the same semester. Repeater exams in lectures will usually automatically be scheduled for the next examination period.

Master Thesis

The master thesis shall show that the candidate is able to work independently on a problem in the field of "Agricultural Sciences in the Tropics and Subtropics" within a fixed period of time by applying scientific methods. The exam consists of a written (thesis) and an oral (defense) part. After marking the candidate has to defend the essential arguments, results and methods of the thesis in a colloquium of 30-45 minutes. The written part of the master thesis has to be completed within a period of six months. It is usually written during the fourth semester. Depending on the chosen modules there might be cases where the third semester is more appropriate. Thesis work includes a literature review, new and original data derived from field work, a period of writing-up and, finally, a presentation. This work can be carried out either at Hohenheim University or at one of the various partner universities.

Important information concerning the topic of the master thesis: According to the examination regulations the candidate may choose a topic of a subject field of compulsory or elective modules, which he/she attended. The topic cannot be chosen of a subject field of an additional module.

Quality Assurance

The quality of courses and modules is evaluated in a two year rotation by the students of all study programmes. The evaluation sheets are distributed and evaluated by the Faculty of Agricultural Sciences and the results are sent back to the lecturers in an **anonymous** format. The lecturers are asked to discuss the results with the students at the end of their courses.

Academic calendar

In the winter semester (WS) courses usually begin in week 42 and end in week 6 or 7 of the new year. In the summer semester (SS) courses usually begin the first Monday in April and end in week 30, 31, or 32. For unblocked modules the lecture period of each semester is followed by an examination period of three weeks. The last block period of each semester has an overlapping with this examination period of the unblocked modules.

Teaching Staff & Mentoring

Most modules are organised and taught by professors of the University of Hohenheim, who have broad experience in international research. Students also benefit from Hohenheim's active links with academic partners worldwide. Guest speakers from partner universities as well as research, development and policy institutions cover additional topics, and thus enrich the curriculum with special fields of expertise.

A personal mentor from the teaching staff is assigned to advise on appropriate profiles and support smooth and goal-oriented progress. The study and examination plan has to be signed by a mentor before it is handed in to the examination office. Changes of modules are possible but have to be approved by the responsible mentor. Mentors are:

- Prof. Dr. Folkard Asch, Management of Crop Water Stress in the Tropics and Subtropics (380)
- Prof. Dr. Thomas Berger, Land Use Economics in the Tropics and Subtropics (490)
- Prof. Dr. Regina Birner, Department of Agricultural Economics and Social Sciences in the Tropics and Subtropics (490)
- Prof. Dr. Georg Cadisch, Agronomy in the Tropics and Subtropics (380)
- Prof. Dr. Joachim Müller, J., Agricultural Engineering in the Tropics and Subtropics (440)
- Prof. Dr. Uta Dickhöfer, Animal Production in the Tropics and Subtropics (480)
- Prof. Dr. Joachim Sauerborn, Agroecology in the Tropics and Subtropics (380)
- Prof. Dr. Anne Valle Zárate, Animal Breeding and Husbandry in the Tropics and Subtropics (480)/Dr. Reiber, C_Reiber@uni-hohenheim.de

- Prof. Dr. Manfred Zeller, Rural Development Economics and Policy (490)

Study Abroad

Our credit point system is intended to facilitate the mutual acceptance of courses attended at different universities. Assessment is based on the European Credit Transfer System (ECTS), which facilitates such kind of international mobility.

Degree

After successful completion of all modules as well as the thesis, the student is awarded the degree "Master of Science" (M.Sc.). This degree entitles the student to continuing with a Ph.D./doctoral programme if the total grade is above average.

Explanation of Module Code

Lecture Periods

WS 14/15	First day of <u>un</u>-blocked modules:	(42. KW) Monday, 13.10.2014
	First day of blocked modules:	(42. KW) Monday, 13.10.2014
	Last day of <u>un</u>-blocked modules:	(6. KW) Saturday, 07.02.2015
	Last day of blocked modules:	(7. KW) Friday, 13.02.2015
SS 15	First day of blocked modules:	(16. KW) Monday, 13.04.2015
	First day of <u>un</u>-blocked modules:	(16. KW) Monday, 13.04.2015
	Last day of <u>un</u>-blocked modules:	(30. KW) Saturday, 25.07.2015
	Last day of blocked modules:	(32. KW) Friday, 07.08.2015

Free of lectures: All Saints' Day: 01.11.2014, Christmas holidays: Mo 22.12.2014 – Tu 06.01.2015, Easter holidays: Fr 03.04. – Mo 06.04.2015, Labour Day: Fr 01.05.2015, Ascension Day: Tu 14.05.2015, Pentecost holidays: Mo 25.05.2015 – Sa 30.05.2015 (excursions might take place), Feast of Corpus Christi: Th 04.06.2015. The "Dies Academicus" (probably 03.07.2015) will be free of lectures too.

Examination periods in winter semester 2014/15

B.Sc. and M.Sc. period 1: calendar week 7 to 9
B.Sc. and M.Sc.: period 2: calendar week 14 to 15
Deadline for the registration for exams: is fixed by the examination office

Examination periods in summer semester 2015

B.Sc. and M.Sc. period 1: calendar week 31 to 33
B.Sc. and M.Sc.: period 2: calendar week 39 to 41
Deadline for the registration for exams: is fixed by the examination office

Questions concerning the examination regulations, the study and examination plan, withdrawal or transcripts of records are answered at the examination office and the exact dates of the module examinations are posted at the online notice-board of the examination office at: (<https://www.uni-hohenheim.de/pruefung.html?&L=1>).
